

Overview:

Platts is the global leader in providing energy information. For nearly a century, the energy industry has looked to Platts as the most reliable source of independent industry news and price benchmarks. From 14 offices worldwide, Platts covers the oil, natural gas, electricity, nuclear power, coal, petrochemical and metals markets.

Mission:

We exist to help our customers make wise business decisions in today's energy markets. Every day, industry professionals rely on Platts' global network of market specialists to deliver the most thorough and reliable energy information in the world.

Platts is the world's most trusted and valued source of global energy information and intelligence.

Through leadership and innovation, Platts is determined to remain the world's preferred source for energy and commodities information, intelligence, decision support, and trading and marketing services.

We realize our mission through our people and their integrity, expertise, and dedication to customers.

Products and Services:

Platts provides global energy and commodities information in the form of real-time news and price assessment services, publications, databases, geospatial tools, conferences, magazines, research and consulting services, and energy financial services.
