CA

GENERAL INFORMATION:

Southern California Edison (SCE) is one of the largest electric utilities in the US, and the largest subsidiary of Edison International (EIX). On an average day, SCE provides power for 12 million individuals, 430 cities and communities, 5000 large businesses, and 280,000 small businesses in Central and Southern California. Delivering that power takes 16 utility interconnections, 4,990 transmission and distribution circuits, 425 transmission and distribution crews, the days and nights of more than 13,000 employees, and over a century of experience.
