John Wasylyk
Email: Johnw@itifabrics.com

Innovative Textiles, Inc. (ITI) Reliant™ fabrics are engineered using the inherent and unique fire resistant properties of Modacrylic Cotton (EMC) blends. The FR protection lies within the Modacrylic fiber itself; Reliant™ fabrics self extinguish, produce a char layer and do not melt or drip. Our EMC™ technology produces fabrics that offer superior hand, professional appearance, and unequaled comfort.

SILVER SPONSORS

DRIFIRE LLC
3151 Williams Road Suite E
Columbus, GA 31909-0000
Phone: (706) 507-7555

Brianna Trowbridge
Email: syouker@drifire.com

Tracy Linton

DRIFIRE develops, manufactures and markets a revolutionary line of Performance FR garments designed with comfort, safety and durability in mind. DRIFIRE garments are engineered to provide unparalleled flame resistant protection and moisture management that is inherent to the fabric and will not wear out or break down over time. A distinctive benefit of the DRIFIRE brand is the patented garment layering system. When garments of various weights are layered together, FR and moisture management performance increases with each additional layer worn. DRIFIRE produces HRC 2 and ANSI certified clothing along with its FR undergarments.
