

# Bringing Energy! to the Classroom

The Edison Electric Institute (EEI) is the association of U.S. Shareholder-Owned Electric Companies. Our members serve 95 percent of the ultimate customers in the shareholder-owned segment of the industry, and represent approximately 70 percent of the U.S. electric power industry. We also have more than 80 international electric companies as Affiliate Members, and nearly 200 industry suppliers and related organizations as Associate Members.

EEI has a rich history of building partnerships that promote diversity, encourage growth and advance energy efficiency. Part of building those partnerships includes engaging communities that our members serve.

## W.A.K.E. U.P.

Wednesday Afternoon Kids & Energy Use Program

In November 2009, EEI will hold its Key Accounts Workshop in Palm Desert, CA. At this meeting EEI will be introducing the Wednesday Afternoon Kids & Energy Use Program, "WAKE UP" on November 4.

"WAKE UP" is an opportunity for energy experts from the nation's chains and utility companies to volunteer their Wednesday afternoon time to visit schools in the local school district and share their knowledge about energy

If your school and students are interested in participating in the Wednesday Afternoon Kids & Energy Use Program please contact Seda Atam by calling 202.508.5556 or emailing at [satam@eei.org](mailto:satam@eei.org).

*Edison Electric Institute & Alliance to Save Energy, thank you for this opportunity.*
