**Al Wright**

**Email:** awrightjr@mmm.com

3M™ Scotchlite™ Reflective Material is recognized as the leading high performance retroreflective material for enhancing worker visibility. The Scotchlite reflective material brand provides increased peace-of-mind to people who wear safety garments. They know that their garment contains material that will enhance their visibility in low-light and nighttime conditions. And they value that their reflective material comes from 3M, a trusted name known for quality and innovation.

For more than 30 years, 3M™ Thinsulate™ Insulation has been helping to keep workers warm and comfortable in harsh environments. No wonder it's one of the most recognized brands of lightweight insulation for garments.

Potential customers, by a large margin, said garments with the Thinsulate insulation brand are considered "best overall".\* When workers see the Thinsulate insulation name, they may be more likely to appreciate your garment's quality, that's a nice way to spread the warmth around the job site.

**Phone:** (219) 477-9188

**William Schnell****Email:** bill.schnell@msanet.com**Optimer Brands/DRIFIRE**

10 S Riverside Plaza, Suite 2200  
Chicago IL 60606

**Jennifer Jones****Email:** jjones@optimerbrands.com**Alan Wallis****Email:** awallis@optimerbrands.com

DRIFIRE develops, manufactures and markets a revolutionary line of Performance FR garments designed with comfort, safety and durability in mind. DRIFIRE garments are engineered to provide unparalleled flame resistant protection and moisture management that is inherent to the fabric and will not wear out or break down over time. A distinctive benefit of the DRIFIRE brand is the patented garment layering system. When garments of various weights are layered together, FR and moisture management performance increases with each additional layer worn. DRIFIRE produces HRC 2 and ANSI certified clothing along with its FR undergarments.
