There's still time to register! Find registration information and a full agenda at EEI 2023, the premiere annual electric power industry forum. The conference will be held at the JW Marriott Austin in Austin, Texas, from June 11-13. Join electric industry executives, government officials, and thought leaders at EEI 2023, which will be held June 11-13 in Austin, Texas. 

Here are four facts you should know about America's energy infrastructure:

1. More than 3 million electric vehicles (EVs) are on U.S. roads, and EEI has projected that today, there are more than 3 million electric vehicles on the road, and EEI has projected that by 2030, there will be 50 million EVs on the road.

2. Transportation electrification is critical to electrifying the U.S. economy. Today, there are more than 3 million electric vehicles on the road, and EEI has projected that by 2030, there will be 50 million EVs on the road.

3. EEI's member companies invested nearly $30 billion in 2022 in adaptation, hardening, and modernization efforts to protect the nation's energy grid. We urge Congress to act quickly to pass the compromise legislation.
