Edison Electric Institute and the University of Wisconsin - Madison, present EEI’s 2018 Transmission and Wholesale Markets School

For five intensive days, you will learn about the nation’s electric transmission and wholesale markets from top to bottom. This is your chance to receive instruction from well-known experts and seasoned veterans who will describe the current thinking on transmission issues, economics, electric market design and emerging electricity issues and trends. As our student, you will study transmission planning and operational issues with an emphasis on the institutional and financial dimensions of the electric power sector as well as policy, reliability, markets and issues on the horizon. Students will develop a comprehensive foundation and deeper understanding of power markets. Additionally, Continuing Education Units (CEUs) will be available, and CLEs can be applied for.

Who Should Attend
Whether you are new to the electric power industry or a seasoned veteran wishing to brush up on emerging policy issues, this course provides high level introductions as well as in-depth analysis of wholesale and market operations and policy. Past attendees of this course have included attorneys, engineers, industry analysts, state & federal governmental and regulatory affairs representatives, state public service commissioners and staff, economists, operations managers, compliance specialists and state & federal governmental agency staff.

About Edison Electric Institute
The Edison Electric Institute (EEI) is the association that represents all U.S. investor-owned electric companies. Our members provide electricity for about 220 million Americans, and operate in all 50 states and the District of Columbia. As a whole, the electric power industry supports more than 7 million jobs in communities across the United States. In addition to our U.S. members, EEI has more than 60 international electric companies with operations in more than 90 countries, as International Members, and hundreds of industry suppliers and related organizations as Associate Members.

Organized in 1933, EEI provides public policy leadership, strategic business intelligence, and essential conferences and forums.

About University of Wisconsin-Madison
With 900 acres sprawling along the shore of Lake Mendota, the University of Wisconsin-Madison is home to 40,000 students. The University is one of the most comprehensive and highly ranked in the nation, offering 4,000 courses in 130 departments. The program in electric power systems is internationally recognized and attracts graduate students from around the world. The Department of Engineering Professional Development offers continuing engineering education seminars and short courses to 15,000 annual attendees, including an array of distance learning opportunities featuring a new Master of Engineering in Professional Practice degree.
**Important Information**

**Workshop Location**
The Pyle Center, 702 Langdon Street at Lake Street, Madison, Wisconsin. If you must be contacted during the course, telephone messages may be left for you at (608) 262-1122.
