

Industry Capital Expenditures

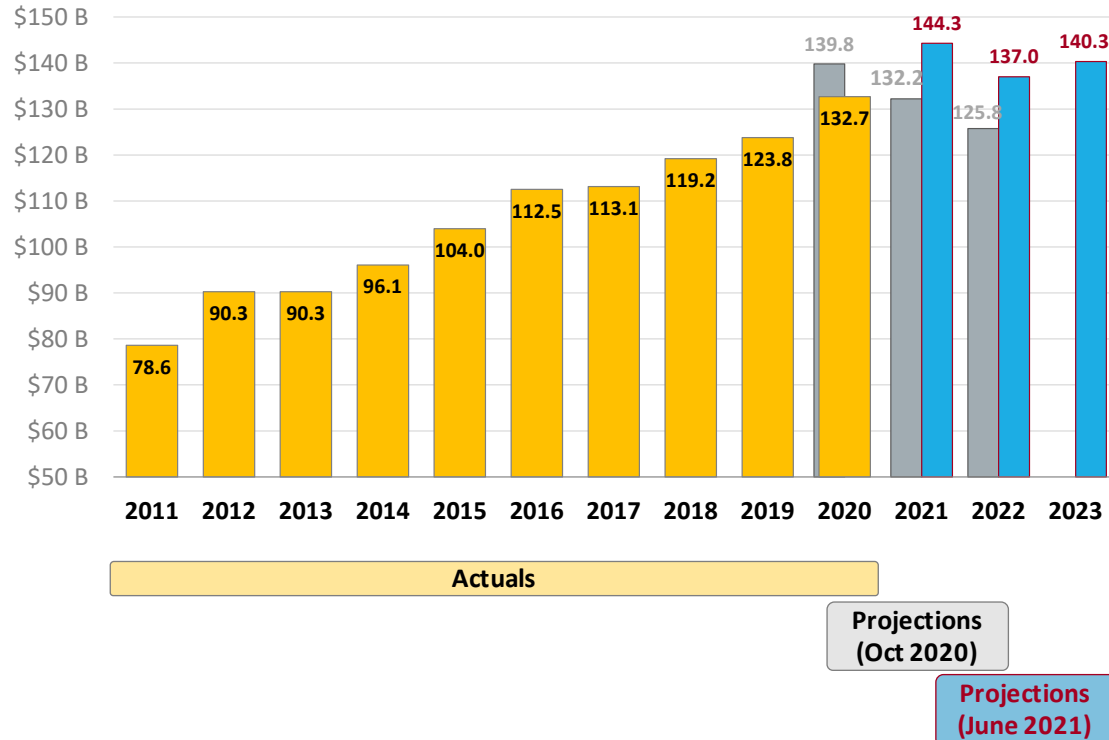

Chart represents total company spending of U.S. Investor-Owned Electric Utilities, consolidated at the parent or appropriate holding company.

Note: At the industry level, CapEx tends to be overestimated for the current, or first, year's projection and underestimated for the two following years. Although the chart indicates investments are trending down in 2022 and 2023 relative to 2021 levels, we expect a continued level of elevated spending after accounting for the historical trend of over- and underestimation.
