As of September 30, 2019, MORE THAN 1.3 million ELECTRIC VEHICLES were on U.S. roads. EV share of new car sales GREW TO 2.6% in September 2019, a high for the year.
**KEY FACTS**

- In Q3 2019, more than 87,000 EVs were sold.*
- The high number of EV sales in Q3 2018 was an outlier likely due to Tesla’s release of the Model 3. Q3 2019 sales were down 21% compared to 2018.

*Due to decreasing transparency in automaker-reported sales data, the numbers reported here are estimates provided by InsideEVs and may be lower than actual.
